

## **PRESS RELEASE**

February 22, 2013

### **Bernheim, Dreyfus & Co. launches charity initiative**

Alternative investment firm Bernheim, Dreyfus & Co has partnered with the French Foundation for Disabled (APSH 34), a charitable association which helps the psychiatrically disabled through their rehabilitation and the process of reintegration into society. For over 30 years APSH 34, together with the Fondation de France and the Montpellier Public Hospital, has also worked to reintegrate the disabled into formal employment (and also to meet their housing needs). Through the dedication and hard work of its volunteer members and sponsors, the organization has made a positive impact on the lives of thousands of people in France.

“When we first met this foundation, our shared interest in philanthropy and desire to leverage our efforts to have maximum impact formed the basis for our partnership. That shared goal continues today, and we are pleased that the partnership will be expanded” said Amit Shabi, President of Bernheim, Dreyfus & Co.

Commenting on the announcement, Line Romero, President of ASPH34, said “We are thrilled to expand our partnership with Bernheim, Dreyfus & Co. To date, our partnership has significantly impacted the people we have supported and we look forward to building upon that success.”
